ARE NOW AVAILABLE!**

VINE Protective Order

Protective Order Notification System

VPO is being implemented throughout your state and will provide enhanced victim information and notification services.

The time immediately after a protective order is served is especially dangerous for the petitioning victim. At the same time, law enforcement professionals face the tough task of serving and enforcing protective orders to stay in compliance with the law. Knowing when the order is served allows the petitioner to seek safety or call police if the respondent violates the terms of the order. This innovative service automatically notifies the petitioner when a protective order has been served on the respondent.

Webinar Workshops are being offered:

Tuesdays at 9:00 a.m. (CST) and Thursdays at 2:00 p.m. (CST) July 15th – August 7th.

This workshop will:

- Provide instruction on VPO site usage
- Demonstrate registration online and by telephone
- Present state specific features
- Explain when and where data is received
- Present benefits from using VPO

Suggested Attendees

Sheriffs, sheriff deputies, dispatch personnel, court personnel, DA office personnel, shelter/advocacy center directors, victim advocates, other service providers.

To register for a workshop, follow these steps:
