She stated that the latest version of the reclassification document was sent out this morning and changes are reflected in green. Representative Ford joined the meeting at 1:47pm. She told the group that the next step is to send her via email any specific changes to the document from members, and she would archive those suggested changes and report to the group. Director Askins joined the meeting at 1:54pm. DA Kunzweiler said our goal is to add certainty for the whole process and greater visualization to the public, and the system can work provided the legislature fully funds treatment programs that DOC will need to safely transition these people back into the community. Deputy AG Lori Carter said she is prepared to create an executive summary. Mr. Tardibono asked about the timeframe. Deputy AG Carter explained that she would be collecting specific comments from members and will sit down with DOC and attempt to determine a fiscal impact, and then present to the whole group. Senator Weaver noted the importance of funding needs and emphasized the need to move quickly to ensure necessary funding and

appropriations conversations can be addressed. Deputy AG Carter said she is unsure how long the fiscal answer from DOC will take, but she intends to work with speed in mind. She does not think official legislative recommendations will be prepared until next session, and DA Kunzweiler emphasized the importance of proper funding being allocated before the changes take place.
